Provenienti dalla macinazione del legume precotto disidratato intero, le farine e i granulati precotti si prestano a diversi utilizzi. Le farine possono essere utilizzate come zuppe vellutate, come addensante o come ingrediente per la panificazione. I granulati invece trovano impiego sia in zuppe sia nella produzione di snack croccanti.

Coming from the grinding of the whole precooked dehydrated pulses, the flours and the grits have several field of use. The flours can be used as cream soups, thickeners or as an ingredient in the bakery industry. The grits are instead utilized both in the soup industry and in the snacks industry as a crunchy ingredient.
